

MBM Construction:

**New Home Construction
Residential Renovations
Light Commercial Construction
Land Planning and Permitting**

MBM Construction is a third generation construction and real estate company whose business professionals have more than 55 years of combined experience. For many years, this successful team of construction specialists have built luxury homes, commercial projects and new home communities throughout Delaware. MBM Construction is a full service company working with clients through design, construction and occupancy.

Attention to detail, careful project planning and cost management are the cornerstones of MBM's business.

MBM's passion lies in valued client relationships. Most of the company's growth is a result of repeat customers and client referrals, "...because we treat each project as if we are the customer."

Client Advantages

- Provides superior construction & service
- Building history
- Proven safety record
- Excellent client, sub-contractor and supplier references
- One year warranty
- Current with new technologies, products and changing trends
- Committed to providing quality, value and client satisfaction in every building project
- Customer and community responsibility

Over 40 years before that, we have first-hand experience with the saying "Lower, Slower, Delaware." You and your team, however, completely debunked that saying. We were amazed that you were able to demolish our old home and build our beautiful new home in just over 4 months, exactly as you had stated at the onset. Our friends and neighbors, many long-time Rehoboth residents, find it hard to believe as well.
